

PRESS RELEASE ON COLOUR DAY

The Pre-primary section celebrated Colours Day on 30th April 2016. It was great fun and learning day especially designed to help the young children to identify and differentiate various colours. Children were involved into various craft activities. Rhymes were recited and a story of colours was also narrated in the classes.

Each class followed one particular colour. Classes were decorated accordingly. Activities were also theme based. Children carried related colour props and were dressed up as per the colour of their class.
